Kehai Polymer Emulsion Technology Transfer Service

Technology transfer: silicone acrylic emulsion, JS waterproof emulsion, modified acrylic emulsion, styrene acrylic emulsion, thickener, emulsifier, dispersant, elastic emulsion, latex emulsion, alkali resistant, flexible sealing adhesive emulsion, emulsion, emulsion paint, wood coatings, metal paint, emulsion modified epoxy emulsion modified alkyd emulsion, elastic emulsion, filter screen printing adhesive emulsion, emulsion, special glass sealant polyester pipe special emulsion, can be customized.

Emulsion equipment: a full set of emulsion equipment, customizable.

Emulsion technology, eight reasons for choosing Kehai Polymer:

1. Laboratory production of samples

No matter how the level of the developer is "master level", lab site production is essential, and it is also a good field teaching. Kehai Polymer, even if the transfer is a conventional technology, were done countless times, will be made in the laboratory.

2. Training of theoretical knowledge

A lot of friends think that if we operate according to the requirements, we will be able to produce qualified products, which is far from enough. It's just a basic requirement for an operator. If you want to really master this technology, you have to understand the principles. Understanding the principle can better control product quality, better deal with the problems encountered in production, better service customers, market

and upgrade products. Kehai Polymer Polymerization principle attaches great importance to the theory and practice of teaching.

3. Training operators independently produce qualified products

This is not to be said much, this is the most basic requirement. Kehai Polymer will 1~2 training operatives, independent skilled to complete all operations.

4. Equipment support service

Different emulsion, different Polymerization processes, different production methods, and the required equipment may vary greatly. This requires the technology transferor not only to provide pure technology transfer, but also to provide equipment support services. Especially for the friends who first produce lotion, facing the dazzling equipment manufacturers and various quotations in the market, they spend a lot of money and time in many times, but they can't find the right equipment, which will be a terrible thing.

According to the existing equipment in the Kehai high friends, according to the equipment provided for the process, or the transformation of equipment, reduce the production cost in the premise of quality assurance. For a friend without ready equipment, the customized emulsion equipment will be provided according to your field, production capacity and technology variety, and a variety of emulsion products can be produced by a device. The cost performance is very high, especially for small and medium-sized enterprises.

5. Lifelong technical service

After the transfer of emulsion technology, it is difficult to avoid problems due to human, machine, material, method, ring and other links, which may lead to shutdown and even customer complaints. The technical team is always a technical adviser Kehai Polymer for you, whether you use our technology production for many years, you will! We will use our thirty years of experience to help you solve problems. We only need to reimburse fees and accommodation, which means that you have a team of engineers who do not pay wages.

6. Establishment of service in the laboratory

Product quality control is an essential part of production, Kehai Polymer according to customer demand, to help build the laboratory, strict control of product quality.

7. TPM services

The equipment inspection and maintenance, is very important for the quality and safety of the service life of the equipment, products, marine Polymer will provide scientific solutions for you.

8. High cost performance

Kehai Polymer technology transfer fees may not be the lowest, the technology may not be the most advanced, but we must be the most carefully, you know, the most cost-effective!

Kehai Polymer, Your Wise Choice!
